DESCRIPTION OF ODORANTS USED IN THE TEST:

During the trial, specific and standardized odorants were employed, representative of illicit and/or explosive substances, carefully selected to simulate real operational scenarios. These odorants were chosen for their precision and reliability in evaluating the dog's ability to detect and accurately identify scents associated with the substances in question, ensuring effectiveness and compliance with the highest operational and safety standards.

BUSINESS REFERENCE LETTER

We inform that the company **DETECCION BRAZIL K9 LTDA**, under ITIN number 39.772.419/0001-05, established in the city of Curitiba – PR, provides services of personnel, cargo, luggage and vehicular inspections, for drug detection with a K9 team (handler + sniffer dog) to **ADMINISTRAÇÃO DOS PORTOS DE PARANAGUÁ E ANTONINA**, ITIN number 79.621.439/0001-91, Port Authority of the Ports of Paranaguá and Antonina.

The services provided by company have been loyal to the requirements regarding time-frame, payment amount and technical specifications signed by both parties under contract number 099/2021 – APPA and annexes.

For the above reasons, and consequently, for meeting the needs of this Port Authority's Security Unit, the contract inspection Commission **CERTIFIES** the **TECHNICAL CAPACITIES** demonstrated by the company DETECCION BRAZIL K9 LTDA on the occasions of the aforementioned supplies, carried out since December 2021, nothing appearing in our records that discredits it to date.

Paranaguá, May 31, 2023.

Eduardo Domanski dos Santos
Contract #099/2021 Manager

COMUNICAÇÃO INTERNA 3578/2023. Assinatura Avançada realizada por: **Eduardo Domanski dos Santos (XXX.536.439-XX)** em 31/05/2023 14:51. Inserido ao documento **557.328** por: **Eduardo Domanski dos Santos** em: 31/05/2023 14:51. Documento assinado nos termos do Art. 38 do Decreto Estadual nº 7304/2021. A autenticidade deste documento pode ser validada no endereço: **https://www.eprotocolo.pr.gov.br/spiweb/validarDocumento** com o código: **1670fbdcaecbb75083caff8ee1f03e2b**.

SUL TRADE AGENCIAMENTOS MARÍTIMOS LTDA - EPP, inscrita no CNPJ sob o nº 10.432.546/0001-75, ATESTA, para os devidos fins, que a empresa **DBK9 INTEGRATED SECURITY**, inscrita no CNPJ sob o nº 39.772.419/0001-05, presta serviços especializados de **inspeção com cães de detecção de narcóticos em ambiente portuário, em portos de todo o Brasil**, desde o ano de 2023 até a presente data.

Durante o referido período, a DBK9 Integrated Security vem executando atividades com emprego de binômios constituídos por cães de detecção de narcóticos e seus respectivos condutores/cinotécnicos, devidamente capacitados para a realização das atividades contratadas.

Os serviços compreendem atividades de inspeção, busca e varredura preventiva com emprego de cães de detecção de narcóticos, desenvolvidas em ambiente portuário, de acordo com as necessidades operacionais da contratante e as características específicas de cada operação.

Atestamos, ainda, que a DBK9 Integrated Security demonstra capacidade técnica, operacional e profissional compatível com a natureza dos serviços executados, disponibilizando profissionais, cães de detecção, recursos operacionais e procedimentos adequados ao cumprimento das atividades contratadas.

Durante a prestação dos serviços, a empresa tem apresentado desempenho satisfatório quanto à disponibilidade e emprego operacional de cães de detecção de narcóticos; atuação de condutores/cinotécnicos capacitados; execução de inspeções, buscas e varreduras preventivas; organização, planejamento e coordenação operacional; cumprimento dos procedimentos e protocolos estabelecidos; elaboração de registros e relatórios relacionados às atividades realizadas; atendimento às demandas e necessidades operacionais; e observância dos requisitos de segurança aplicáveis às atividades desenvolvidas.

Declaramos que os serviços vêm sendo executados de forma satisfatória e compatível com as obrigações assumidas, não havendo, até a presente data, registros que desabonem a capacidade técnica da empresa quanto à execução dos serviços objeto deste atestado.

Dessa forma, **ATESTAMOS A CAPACIDADE TÉCNICA DA DBK9 INTEGRATED SECURITY PARA A EXECUÇÃO DE SERVIÇOS ESPECIALIZADOS DE INSPEÇÃO COM CÃES DE DETECÇÃO DE NARCÓTICOS EM AMBIENTE PORTUÁRIO**, demonstrando possuir experiência, estrutura operacional e aptidão para o desempenho de atividades de natureza e complexidade compatíveis com os serviços acima descritos.

O presente Atestado de Capacidade Técnica é emitido a pedido da empresa interessada para fins de comprovação de sua experiência e qualificação técnica.

[Cidade/UF], 22 de setembro de 2026.

K9 INSPECTION REPORT

M/V PMS ENZIAN

ISO 9001 Aligned
Confidential – CSO / Owner / Charterer Use Onlys.

DBK9.COM.BR

EXECUTIVE SECURITY SUMMARY

This report documents a preventive K9 maritime inspection conducted in support of the Vessel Security Plan (VSP) and Company Security Officer (CSO) responsibilities. The inspection demonstrated due diligence and risk mitigation. No positive alerts were indicated. Overall risk level assessed as **LOW**.

COMPLIANCE & STANDARDS

This K9 inspection activity was conducted in accordance with applicable international maritime legal, security, and quality standards, including:

- International Maritime Organization (IMO) Maritime Security and Drug Law Enforcement Guidelines;
- IMO Resolution FAL.9(34) on the control and repression of the smuggling of psychotropic substances and chemical precursors in international maritime traffic;
- Maritime Drug Law Enforcement Act (MDLEA);
- International Ship and Port Facility Security Code (ISPS Code);
- ISO 9001 – Quality Management Systems.

The inspection was carried out in compliance with internationally recognized Company Security Officer (CSO) parameters, ensuring alignment with maritime security management responsibilities and operational control requirements.

All inspection procedures were executed under controlled conditions, with documented processes and records maintained to ensure traceability, compliance, and continuous improvement in accordance with ISO 9001 requirements.

INSPECTION METHODOLOGY

Certified narcotics detection dogs, trained in passive odor detection techniques, were deployed in accordance with internationally recognized standards for the use of narcotics detection canines. Inspections were conducted under controlled and documented conditions, following standardized operational procedures aligned with ISO 9001 Quality Management System requirements. All accessible internal, external, and engine room areas were systematically inspected using a risk-based approach, ensuring operational consistency, traceability, and adherence to best practices applied by leading global maritime security organizations.

K9 INSPECTION REPORT

M/V FEDERAL SABLE

ISO 9001 Aligned

Confidential – CSO / Owner / Charterer Use Only.

EXECUTIVE SECURITY SUMMARY

This report documents a preventive K9 maritime inspection conducted in support of the Vessel Security Plan (VSP) and Company Security Officer (CSO) responsibilities. The inspection demonstrated due diligence and risk mitigation. No positive alerts were indicated. Overall risk level assessed as LOW.

COMPLIANCE & STANDARDS

This K9 inspection activity was conducted in accordance with applicable international maritime legal, security, and quality standards, including:

-International Maritime Organization (IMO) Maritime Security and Drug Law Enforcement Guidelines;
-IMO Resolution FAL.9(34) on the control and repression of the smuggling of psychotropic substances and chemical precursors in international maritime traffic;
-Maritime Drug Law Enforcement Act (MDLEA);

- International Ship and Port Facility Security Code (ISPS Code);

-ISO 9001 – Quality Management Systems.

The inspection was carried out in compliance with internationally recognized Company Security Officer (CSO) parameters, ensuring alignment with maritime security management responsibilities and operational control requirements.

All inspection procedures were executed under controlled conditions, with documented processes and records maintained to ensure traceability, compliance, and continuous improvement in accordance with ISO 9001 requirements.

INSPECTION METHODOLOGY

Certified narcotics detection dogs, trained in passive odor detection techniques, were deployed in accordance with internationally recognized standards for the use of narcotics detection canines. Inspections were conducted under controlled and documented conditions, following standardized operational procedures aligned with ISO 9001 Quality Management System requirements. All accessible internal, external, and engine room areas were systematically inspected using a risk-based approach, ensuring operational consistency, traceability, and adherence to best practices applied by leading global maritime security organizations.

DESCRIPTION OF ODORANTS USED IN THE TEST:

During the trial, specific and standardized odorants were employed, representative of illicit and/or explosive substances, carefully selected to simulate real operational scenarios. These odorants were chosen for their precision and reliability in evaluating the dog's ability to detect and accurately identify scents associated with the substances in question, ensuring effectiveness and compliance with the highest operational and safety standards.

SONIC RASERA DETECTION DOGS [FEE]

ALISSON RAFAEL DA SILVA - CPF NO.: 081.191.829-79

Brazil, Curitiba-PR, 27 de May, 2026

SUBSTANCES EMPLOYED IN THE OLFACTORY ASSESSMENT

DESCRIPTION OF ODORANTS USED IN THE TEST:

During the trial, specific and standardized odorants were employed, representative of illicit and/or explosive substances, carefully selected to simulate real operational scenarios. These odorants were chosen for their precision and reliability in evaluating the dog's ability to detect and accurately identify scents associated with the substances in question, ensuring effectiveness and compliance with the highest operational and safety standards.

SUBSTANCES EMPLOYED IN THE OLFACTORY ASSESSMENT:	
COCAINE	
MARIJUANA	
CRACK (NARCOTIC DRUG)
